SKIN TREATMENTS

A complimentary, in-depth skin consultation will be carried out by our qualified team of aestheticians prior to any skin treatment.

Using our state of the art Observ Skin Analysis System we can accurately diagnose under-lying skin conditions to help determine your treatment plan. This will ensure that you are advised on the most effective treatment plan for your desired result.

SKINPEN

SkinPen is the only microneedling device approved by the FDA. Clinically proven to safely and effectively treat the skin, it will increase the long-term collagen production naturally. By stimulating the wound-healing response, the appearance of lines, wrinkles and scarring will not only be improved but your skin will be left tighter, radiant and luminous.

ALUMIERMD

ALUMIERMD PROFESSIONAL PEEL £130

Your AlumierMD professional can customise your program of treatments to target your specific skin concerns whether it be aging, pigmentation or acne. The unique experience includes an exfoliating peel treatment, brightening enhancement followed by prescriptive serums to reveal a more radiant, soft and luminous skin.

ALUMIERMD ADVANCED PROFESSIONAL PEEL £155

This combines lactic acid, salicylic acid and resorcinol, creating a multipurpose resurfacing solution effective in minimising the appearance of fine lines, wrinkles and hyperpigmentation issues like age spots, discolouration and uneven skin tone. This formula exfoliates dead skin cells and stimulates cell renewal. To suit individual needs, this peel can be customised by strength by the number of layers applied.

ALUMIERMD LUXURY FACIAL £99

This a unique experience that combines relaxations with high performing active ingredients to address your skin concerns. This treatments includes a facial massage that will helps to release toxins in the skin and soothe tension while relaxing body and mind. Your highly trained AlumierMD skin care professional will customise your treatment, which will leave your skin looking incredibly radiant and feeling refreshed and balanced.

ALUMIERMD LUXURIOUS NECK & DECOLLETE TREATMENT £125

The neck and décolleté areas are not given as much care and attention as they deserve. AlumierMD's Luxurious Neck and Décolleté treatments starts with a resurfacing peel, which enhances skin renewal and boosts the absorption of brightening, anti-aging and antioxidant ingredients. It finishes with a firming cream specifically designed for the neck and décolleté area and a moisture mask for optimal hydration.

EYE RESCUE TREATMENT Add £5

Eye Rescue Pads are soothing and cooling gel pads to rejuvenate the eye area. This add on is a must for anyone that is looking to improve the appearance of the delicate eye area. You will be treated to a pressure point massage to improve circulation and clarity leaving your eyes looking brighter and refreshed.

Skin

Skin

VENUS VERSA™

Venus Versa™ uses cutting-edge technology to offer non-surgical solutions for many of today's most in-demand aesthetic concerns, including premature signs of ageing, skin damage and uneven texture, cellulite, and wrinkles.

VENUS VERSA™ SKIN TIGHTENING

The Venus Versa™ uses a Multi-Polar Radio Frequency (RF) to provide a comfortable anti-aging treatment that tightens the skin and diminishes wrinkles with no surgery or downtime. The result is a noticeably refreshed and more youthful-looking appearance. As we get older, our bodies naturally produce less collagen, leading to skin that can look dull and noticeably aged. This skin tightening treatment provides an extremely comfortable, non-surgical solution that harnesses the power of radio frequency technology to boost collagen production by heating the deeper layer of tissue under the skin. This treatment works to smoothen out fine lines and wrinkles, tighten sagging skin, and restore a refreshed, younger-looking appearance.

Recommended course of 8 treatments. Advanced skin consultation required before booking.

VENUS VERSA™

VENUS VERSA™ SKIN RESURFACING

The Venus Versa™ skin resurfacing treatment comfortably smoothes out uneven skin texture, scars, rosacea, enlarged pores, stretch marks, and other skin textural conditions. Venus Versa™ skin resurfacing treatments work by using tiny pins to safely deliver heat (via Nano Fractional Radio Frequency) through the surface of the skin. This creates very small micro-dermal wounds, which your body naturally heals on its own. The process works to repair signs of skin damage that are visible on the surface, such as scars from acne or injury, deep wrinkles, enlarged pores, uneven skin texture, and pigmentation. Since the wounds are so small, the treatment is much more comfortable than traditional CO2 lasers, while still producing incredibly visible results.

*Recommended course of treatments.

VENUS VERSA™

VENUS VERSA™ PHOTOFACIAL

The Venus Versa™ photo facial treatments work to reduce visible signs of premature aging, such as sun damage, brown spots, visible veins, discoloration, and fine lines and wrinkles. The treatment is powered by Intense Pulsed Light (IPL) with SmartPulse™ technology that delivers precise light through several layers of skin. This generates heat when absorbed by the targeted tissue, which corrects imperfections in the skin without damaging any of the surrounding tissue. A real-time cooling system works to keep your skin protected throughout treatment. Recommended course of 4-5 treatments. Advanced skin consultation required before booking.

VENUS VERSA™ TRIBELLA

Three unique procedures combined to offer complete skin renewal. TriBella from Venus Versa™ combines the power of three unique procedures into one complete skin renewal treatment—resulting in incredibly smoother, younger, healthier-looking skin. This high-intensity non-invasive solution gives highly visible results faster and in fewer treatments. The TriBella photo facial treatment corrects discoloration, fades age spots, reduces sun damage, and improves skin tone. Then, the anti-aging treatment erases fine lines, reduces wrinkles, and firms up skin. Lastly, the skin resurfacing treatment smoothens out uneven skin texture, scars, rosacea, enlarged pores, stretch marks, and other skin textural conditions.

Recommended course of 3 treatments. Advanced skin consultation required.

VENUS VERSA™

Venus Versa™ uses cutting-edge technology to offer non-surgical solutions for many of today's most in-demand aesthetic concerns, including premature signs of ageing, skin laxity, skin damage and uneven texture and cellulite.

VENUS VERSA™ BODY SLIMMING

Cellulite is much more common than you'd think. It impacts as many as 90% of women at some point in their lifetime, often due to hormonal changes, genetics, diet, and other lifestyle factors. But as common as it is, it's not something you have to live with. Venus Concept's non-surgical body slimming and cellulite treatments are powered by technology that helps shrink fat cells to improve the appearance of bumps and dimpling. Venus Versa™ body slimming and cellulite reduction treatments work by using energy delivered through a combination of Multi-Polar Radio Frequency and Pulsed Electro Magnetic Fields to produce heat under the skin's surface. This process helps to naturally increase collagen and elastin fibres while also shrinking the volume of fat cells. The result is a more sculpted and slimmer-looking body, tighter-looking skin, and cellulite that almost disappears. These treatments are very comfortable and can be customized to target fat and/or cellulite at any stage with no downtime.

*Recommended course of 8-10 treatments.
Body treatment consultation required before booking.
